Imperial Wizard W. J. Simmons Urges Pres. Harding, Daugherty to Act

#### **ORGANIZATION UNDER NATION-WIDE ATTACK**

Klan Forces Plan to Urge Solons to Rush Through Proposed Probe

United Press Leased Wire ATLANTA, Ga., Sept. 28 .- Telegrams urging an immediate investigation by federal authorities in the affairs of the Ku Klux Klan were dispatched to President Harding and Attorney General Daugherty today by William Joseph Simmons, imperial wizard of the organization.

Arising from his bed, to which he has been confined since Monday, with throat trouble, Simmons personally dictated this telegram:

'We plead for and would welcome an investigation and appeal to you with a clear conscience and with a knowledge that after such an investigation is completed, the Knights of he Ku Klux Klan wi'l stand out in the white light of vindication from charges made against it.

"The Klan was founded on the bedrock principles of democracy and patriotism. It seeks only to bring together in a confraternaty men actuated by love of justice and a deep faith in the glorious future of the Ameri-

"The Klan is not a political organization to foster religious or racial intolerance. We affirm with millions of Americans that all men should have the right to vote and worship as they please so long as they do not attack or undermine the great principles upon which the United States was founded. Our creed is simply affirmation that the American commonwealth was wounded by the western races and is the highest expression of Protestant was opened in the senate today by civilization. our anicent faith and racial integrity and to encourage our members to better citizenship."

To Daugherty, Simmons said: "We pledge you the assistance of officials and members of the Klan in this investigation. Our records, books, files, etc., are at your disposal.

"If any so-called outrages, as charged by a small partisan press, have been committed by members of the Ku Klux Klan we will render every possible assistance to the department of justice in tracing the alleged acts and will be glad to fix the guilt on any man or men, members of the Klan or not, who take the law into their own hands.

"Our information proves that these stances by others with an ulterior motive to serve.'

#### Ford Announces Plan For Drive to Clean Up Politics

IRON MOUNTAIN, Mich., Sept. 28.—Henry Ford today announced he was ready to start a drive to clean up poli-

Ford, who is here inspecting some of his properties, issued a statement, saying he would carry on a country-wide campaign, if necessary, to cleanse politics.

The manufacturer said he issued his statement to empha-size the telegram he sent to the senate Monday demanding that the upper house "clean its own skirts" in handling the Newberry case.

"The issue, not the parties involved is what is prompting me to make this fight," said Ford. "I have not the slight-est ill-will towards Mr. Newberry, but this issue rises above all personal considerations. Free government cannot survive the wholesale corruption of the electorate.

"We have proved before the senate that over a quarter of a million was expended by Mr. Newberny and his committee and associates to buy the election in Michigan."

#### **HOLD GIRL AS \$2000 JEWELS** FOUND IN ROOM

House Maid Is Taken In Luxurious Hotel Following Alleged Coronado Robbery.

SAN DIEGO, Sept. 28 .- The disappearance of \$2,000 worth of clothing and jewelry from the residence of Mrs. Carolyn B. Choate of Coronado today led to the arrest of pretty La Verne Hawley, 18, who secured a position as maid in the Choate household two days ago, then suddenly left.

The girl was wearing one of Mrs. Choate's dresses and smoking one of Choate's mononmed cigarettes when arrested in a local hotel room where the missing articles were found, according to the police.

# Fix Walnut Prices In L. A.

# MOVES TO HAL

By HERBERT W. WALKER

United Press Staff Correspondent WASHINGTON, Sept. 28. - Any call for a rail strike will cause im mediate action by the national unemployment conference meeting here, it was learned today from high

administration officials.

The plan of the administration is to call the strikers before the com-mittee on emergency measures to increase employment in transporta tion if a walkout is ordered. Efforts will be made to bring pressure on the roads and the brotherhoods to avert a strike.

The majority of private employ ment agencies "are performing no public service whatever" and should be wiped out or placed under "strict government supervision," Dr. Russell F. Phelps, director of statistics of the Massachusetts department of labor told the conference today.

He attacked the private agencies, charging many of them with "bleed ing" men who apply for jobs. Many of these agencies, Phelps said, have standard charge of one week's pay for every month of work they get a

## America Faces Prosperity - Wave, View of 200 Bankers

SAN FRANCISCO, Sept. 28.—American business has struck bottom and is slowly rising toward prosperity, according to 200 eastern bankers and financiers here today en route to the American bankers' convention

Arthur H. Titus, president of the first federal foreign banking association, New York City, said: The foreign banking business has been in a rather delicate condi-

tion, but I believe the worst is passed. Conditions in nearly all countries are better than a few months ago." Thomas B. McAdams, vice president of the Merchants' National

bank of Richmond, Va., declared: "In so far as the south is concerned, the recent rise of cotton and tobacco has strengthened the motale and put everyone in a spirit of

William H. Monk, of the Royal Bank of Canada, New York, said: "We are in far better shape than a few months ago and should see normal times by next spring.

### DEMOCRAT SENATORS HOLD WHIP HAND IN PACT BATTLE, IS VIEW

By FRAZER EDWARDS United Press Staff Correspondent WASHINGTON, Sept. 28. — Republican leaders have decided not to make real efforts to secure senate approval of the German treaty until they effect a ratification drive.

Meanwhile the fate of the German treaty, as well as the Austrian and Hungarian pacts. apparently rested in the hands of thirty-six Democratic senat-

Thirty of the Democrats could kill the pacts. Ratification requires a two-thirds majority sixty-four of the ninety-six senators, if all are voting. Three Republicans, Borah, La Follette and Norris, are certain to oppose the treaties and thirty-three would block approval.

Despite the advice of leaders against making the treaties a party issue, Democratic opposition is rapidly growing. The names of three more Democratic "defeatists" were today added to the daily lengthening list-Mc-Keller, Tennessee; Harris, Georgia; and Heflin, Alabama.

Seven other Democrats have already announced their intention to vote against the pacts.

#### Gardner's Wife Urges Him to Surrender and Serve Sentence

MONROVIA, Cal., Sept. 28 .-Hal F. Slemons, wealthy citrus grower, today wired President Harding an offer to employ Roy Gardner at \$2000 a year and give the mail bandit a "clean start again," if the president would pardon him. "Gardner is an automotive engineer," Slemons told the United Press. "I'll give him a job in charge of the gas engine equipment on my place and help him get a fresh foothold and be a free citizen again." Slemons' ranch is on the Foothill boulevard, near Arcadia.

SAN FRANCISCO, Sept. 28 .-Dolly Gardner, wife of Rcy Gardner, elusive bandit today appealed to Gardner to return to McNeill's Island penitentiary.

"In your letter to President Harding you said you had ended your criminal career," Mrs. Gardner wrote her husband in a letter published and copyrighted by the San Francisco Bulletin.

"To show you really mean this, go back to McNeill's Island. You cannot be a hunted man and lead an honorable life. "Show President Harding and everyone you are the man I have always said you were. Most anyone can be taken back but it takes a Roy Gardner and a real thoroughbred to go back his own accord and take his chances with the rest. "The law renders our friendship powerless to help you now. "Roy, do this for my sake and little Jean's. I want to do the best thing for you. That is why I ask this of you. Think this over but do not

let others think for you.' The letter was published by the Bulletin in conformity with Gardner's request that if any one cared to communicate with him to have their communicatians published in that paper. TACOMA, Wash., Sept. 28 .-

Petitions, urging President Harding to parole Roy Gardner mail robber, who escaped September 5, from the federal penitentiar y on McNeill's Island, will be circulated soon here, it was said today. A prom inent husiness man of Old Ta coma is said to be sponsoring the movement.

"We want to send Gardner back to his wife and family, this man said.

One who strongly objects to the movements is Judge George T. Reid. He said the proposed

action is "rotten. "Gardner is a desperate mail train robber. This parole proposal strikes me as the most sickening, mawkish sentimentality I ever heard of," Judge Reid said. "There is no merit in it. I do not think any president would give five seconds consideration to it."

I'm trying the school club members. Such elementary school club boys as have had experience in judging and placing animals, will also be allowed to complete.

#### Japan Cotton Buyers Corner Majority of October Crop, Word

NEW YORK, Sept. 28. Japan has options on practically three fourths of the October cotton crop it was learned here today. Although the exact amount is not known, brokers in Wall street have received information that of the 82,000 bales of the October crop now contracted for, Japan has managed to corner options for between 50,000 and 60,000 bales.

Traders in the street do not fear any serious results of the corner, it was said. It is believed Japan will either ship the cotton to the Far East or sell it here for a price higher than was paid. The shipping has a bullish effect on the market but would not create a shortage here.

#### **FLY PAPER TO** HAVE PART IN POISON TRIAL

Alleged Feminine 'Bluebeard' Faces Charge of Getting Death Potion In Unusual Manner.

TWIN FALLS, Ida., Sept. 28. -The fate of Mrs. Lyda Southard, alleged "female Bluebeard." hinges largely on a little roll of poison fly paper, according to plans of both defense and prosecution revealed today.

Chemists for both sides wil

testify regarding the composi-tion of this paper and the form and amount of arsenic found in Mrs. Southard is specifically

charged with the murder of her fourth husband, Edward Meyer, by poison. She is also alleged to have caused the death of ree previous husbands, a brother-in-law, and her two year old baby.

## Do you discriminate at the dining table—or are you thoughtless?

In thousands of homes, a "line" is drawn at the breakfast table. Tea or coffee is served for grown-ups" and Postum for children. But some parents do not discriminate. Caffeine and tannin, the injurious contents of coffee and tea, seriously retard the development of the delicate perve tissues in children.

Consequently, instead of rich, satisfying Postum, children are over stimulated by the drugs in tea and coffee; and so may grow up irritable and nervous. Any doctor can tell you that this is a great evil and should be corrected.

Although some parents feel a certain justifi-cation for the personal indulgence in coffee, yet the harm to them may be equally serious. It may take a little while longer for the drugs in coffee and tea to affect an older person, but in many cases the nervous system and allied bodily functions will become weakened. The surest way to avoid such possibilities is to quit coffee entirely and drink Postum instead. The change permits you to get sound resetful alarm. to get sound, restful sleep.

Postum is the well-known, meal-time beverage. Like thousands of others you will like it because, in flavor, it is much like a high-grade

Do away with the distiction at the table. Serve delicious Postum, piping hot, to all the family. One week's trial and it is likely that you'll never return to tea and coffee.

tum comes in two forms; Instant Postum (in tins) antly in the cup by the addition of boiling water. Cereal (in packages of larger bulk, for those who make the drink while the meal is being prepared) soiling for 20 minutes.

Postum for Health There's a Reason

ORANGE, Sept. 28 .- Orange lodge, No. 225, I. O. O. F., is making great preparations for a big celebration on Thursday evening, October 6, when the mortgage and notes that have overshadowed the lodge building

# Fashions of the Hour Rivaling Peasants of old in their striking effects

S HOULD one suddenly awake from a Rip Van Winkle sleep in the midst of the modes of the house, perplexity would but mildly indicate his mental state. Whether the age were the mid-Victorian, Spanish Inquisitorial, Revolution, the Reign of the Louis or the age of the Prophets and Sagas, 'twould be difficult to determine. To the picturesque and the beautiful in all of them, we are indebted for a Fashion Exposition which rivals in splendor the pageants of long-forgotten centuries. Yet apparently not a practical feature has been sacrificed to accomplish the extraordinary beauty of these fashions of today.

# Fall Suits in Diversity of Styles

THE choice of a Suit for Autmn presents only an outlook of pleasant anticipation. The unwonted diversity of the Suit Mode gives generous opportunity for personal preference and assures a satisfaction unknown to other years. Dark tones and straight lines are plentiful for reserved tastes. Bright colorings, elaborate embellishment, uneven hems, novel collars and sleeves are abundantly featured in dressier models. Profuse quantities of fur trimming are noted on many suits. From \$21.50 to \$100.

Trim In line, featuring a straight panel in front and back charming Yalama Sult is giver effective finish by adding a collar of fur and hand embroidery at the sides and the cuffs. Flat effect in back of skirt.

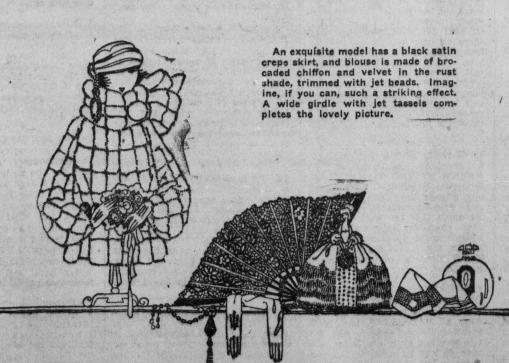

# Snug Wraps with new sleeve model

THE new Autumn Wraps are in two widely differing types, reflecting the two distinct silhouettes which characterize the present mode. The trimness of the ripple skirt and fitted bodice with its high collar presents a decided contrast to the more careless draped lines of the wrap. Dropped shoulders, wide sleeves and Russian blouse effects are interesting new features. There is a richness about the new Pollyanna and Erminine both appealing and becoming. From \$27.50 to \$125.

Erminine, one of the season's newest and finest fabrics, is fashioned into a beautiful coat. The unique corded effect in the back with tassels in addition to a beautifully Kolinsky squirrel collar gives this coat distinction in dress.

# Frocks Hint of Paris In Their Sophisticated Simplicity

SMART tailored frocks of cloth, frequently embroidered in high colors, are much in the picture for Autumn wear, seconded ably and beautifully by tunic Dresses of Poiret Twill, Serge or Tricotine. In gracious contrast to these tailored types, afternoon frocks of soft satin crepes, satins and sometimes velvets incline toward the free use of drapery on skirts though the style is unvaryingly simple and the use of trimming restrained. Irregular hems and loose panels are features. Many of the distinguished models achieve their surpassing loveliness through the richness of the fabric alone. From \$22.50 to \$85.

English hoslery, plain and clocked, made of fine wool, for sports and all outdoor wear, carries an assurance of an extra shapely foot and

trim ankle and a practically

non-shrinkable quality.

Paris Gloves, easily distinguished from all ordinary makes by their fashion, beauty and fine soft quality—12 and 16 button lengths of fine kid—black, white and a few good colors.

Round youthful collars of real Irish lace are a new feature in modish Neckwear. Dressy little net Guimpes combine Irish and fine Val-

Interesting new girdles for one-piece dresses are braided in clever manner, having a tassi 19 inches long! All colors. We also make girdles to your order.

Van Raalte hoslery is shown in silks of exceptional fineness, in appropriate colors. The makers of this quality hoslery have outdone themselves this season in smart effects.

# Rankin's Presents Its

# AUTUMN EXPOSITION

Thursday, Friday and Saturday September 29, 30, and October 1

WHILE the world of out-of-doors has been acquiring its richest garb and gayest humor, the world of fashion has been busily undergoing the same cheerful and hugely interesting transformation. From the delicate pastel tints of Summer we have progressed to the gorgeous colorings of Autumn. Instead of the diaphanous filmy textures consistent with August suns, we find our fingers fondling the rich, soft, warmer fabrics that protect from raw winds. Not in many years has the Store been filled with such gay notes indicative of the mode. Joyous anticipation is in the air; gorgeous materials; sprightly fashions; the spirit of beautiful, unquenchable Youth prevails.

# There's Many A New Fabric to catch Milady's Eye, when she goes A-shopping

That the ideal and the real, the artistic and the practical could so harmoniously mingle would seem a myth and a delusion if we had not proof here before our very eyes. Each new silken fabric with its fascinating Dovedown, Satin Dovette and Satin Francais—is but added revelation of how undeniably serviceable such beautiful things may be.

While the heavier fabrics—the new Wool Evora, French Piquitine, Tricotine, Prunella—commonplace as their names may sound, have acquired wholly unprecedented beauties of weave and colorings, with the new season, and the new pile fabrics for suits, coats and coat dresses have developed unbelievably lovely textures and tones. For evening, Velvets have flamed into vivid reds and indiscreet blues, and filmy chiffons and Georgettes are sumptuously velvet brocaded.

# Superb conceptions a refashioned from silver brocades on filmy grounds. Gorgeous affairs are achieved from colored metal brocades with mysterious Egyptian motifs.

Seen at the New York Fashion Show: All shades of red from dull Byzantines to brilliant pillar-box; purple in every tone from cyclamen pink to deep violet; new yel-

In Paris fur fabrics are in high favor. Rodier announces three new ones, long-nap wool plushes—veloursine, pelissa and pelline.

# Modes for Children Delightful in their chic naivete Fa

To appreciate the importance of child life in America one has to consult the Children's Department on the Third Floor in all its brave array. Foremost designers of the world have contributed to this mode, and the result is an alluring picture. The outdoor element is a salient feature—an abundance of Play Dresses and Suits, Coats and Sports Togs, adorable Party Clothes, Sensible School Clothes, Pinafore Frocks, Dresses in new and delightfully childish interpretations, finished with infinite care for fine details.

# Furs of Beauty to Enfold Madame with charm

WHEN Madame is abroad on the streets of a Winter's day she is likely to boast a beautiful neckpiece of opossum, mink, grey wolf, black skunk—or a choker of mole, mink, brown fox. Furs have a vogue this season which bids fair to overshadow all previous years. The modes are dictated by fashion in no uncertain terms.

# For Miss Sixteen Fashions that will appeal to her

WHEN even Dame Fashion herself masquerades in youthful guise
—why need the flapper worry? Any or all of the modes are
her domain. The new dresses will delight her heart. Suits for the
flapper contingent at the first S. A. H. S. football game may fit the
mood as to color. Her swagger coat is slimly belted at the low waistline. And as for Frocks—she may resemble a demure Colonial belle
or a red-lipped Carmen or any intriguing slip of femininity between
the two, and still radiate the Autumn mode.

# Autumn Blouses Spirited in style, Vivid in Color

TO the devotee of the separate skirt and blouse the new mode brings much that is interesting and pleasing. Without the dimming of a single detail of their loveliness, the new Blouses seem to have become more wearable and serviceable than in other seasons. Mandarin effects in style give opportunity for rich Oriental embroideries, plaited overblouses, some very long. From \$5.00 to \$22,50.

Some uncommonly likable models are appearing among the new wool skirts, fashioned of broad-striped Prunella, skillfully plaited into veritable pictures in two-tone effects. Rich, warm plaids with a contrasting over-tone stripe make wonderfully wearable skirts for countless uses. All the larger sizes are here. From \$17.50 to \$21.75.

Navy and bisque Canton Crepe, elaborately beaded and braided, trimmed with spike nalls, kimona sleeves, form one of the most beautiful styles in

An overblouse of Canton is elobarately embroidered with irridescent beads, has a cord draw at neck and on sleeves; comes in rich dark brown and navy.

# Laces and Embroideries take their cue from styles of all nations

GREAT quantities of beautifully hand-made laces in Irish patterns, New Valenciennes laces, the newest effects from foreign lands, have recently arrived to swell our already good assortment. The very widths and patterns you want are easy to find. New bands in 12 and 18-inch widths, in black and white; narrow widths of 2 inches and over. Dress flouncings, crochet laces, edgings and insertions of every imaginable description for every delightful Autumn purpose.

Beautiful new fall Sequin Flouncings in dress lengths are pictures of art. Striking irridescent effects, in Royal Blue and White, Sequin All-Overs—18 inches wide. The black is especially good.

The new Cloth of Gold, Copper Tricotine, Silver Cloth Vesting in heavy quality, beautiful colorings of Jade, Gold, Silver, Orchid, Antique, and Copen. Fashionable women are buying them for Autumn hats.

It has come to my attention that certain students of the Junior College have been soliciting merchants and dealers in Santa Ana for advertising in a new publication purporting to be a Junior College paper.

Notice is given that such a pa-per is wholly unauthorized by the Student Body association and the Dean of the College. It in no way represents the Junior College, and its publication as in any way conneced with the college has been forbidden. E. M. NEALLEY, Dean of Junior College.

Deciding to take upon their own shoulders full responsibility for fincollege students here will begin pub-

Wilmer to support a paper of its own, it is understood, the paper now forming will be offered to the student body.

among the guests at St. Ann's Inn, some ammonium sulphate. The fuel would furnish about as much heat as the original ton of coal. The gas would run the average kitchen range would run th

# Betty Lou Goes Shopping

TIME economy as well as money economy is a strong point when we women go shopping. That's one of the reasons why it's so pleasant to be able to buy every-thing we need right here in Santa Ana, without having to take a long car ride. I for one, certainly do appreciate it.

BETTY LOU

MY nephew has just become engaged to the dearest girl and I wish you could see the diamond he has given her. It is a beauty, from PADGHAM'S, of course, and the setting is equally as beautiful. Padgham's have such wonderful diamonds, you such wonderful diamonds, you know. Their stones are the kind that are not affected by these flurries in price to which imperfect diamonds are subject, but are al ways obtainable at the standard price for perfect stones.

SISTER was telling me yesterday about the new house they have just bought through WAL-LACE AND GOODE, and how pleased they are with it. Wallace and Goode took care of renting the house they have just left, too, and altogether Sis says they're very well satisfied. It's such a comfort to deal with reliable realtors, I think.

Net frocks for party wear are made with many flounces.

You know there's such a difference in henna rinses—I used The ence in henna rinses—I used to think that they left the hair bright red. But I find that those I get at the HAIRGROW SHOP, 117 1-2 E. Fourth, don't make my hair red at all, but just tone it up that the subtractions of the subtractions. and bring out the auburn tints that were already there. I'm so pleased with the effect that I'm letting Anita have them too, and it certainly does make her hair

Veils will be worn with the smart winter hat.

ONE thing our whole family is always up to date in its shoes Anita and I have just gotten our-selves each a pair of the new oxfords at WATKINS' BOOTERY. They're all the rage in New York, in both black and brown. come in buck with patent colt trim, and also in dull calf with the same trimming. And they're Kelly shoes, custom made for Watkins' Bootery, which makes them additionally attractive, for it insures their wearing quality.

I NOTICE that at the Better Homes Exposition this week the EXCELSIOR CREAMERY is furnishing the dairy products used by Mrs. Chase in her cooking dem-onstrations. Of course we have always gotten our milk and cream and butter as well as our ice cream from the Excelsior, and it made me feel even more secure in my own judgment to realize that such an authority as Mrs. Chase would choose them too.

Reed furniture is becoming popular for even the more formal rooms in the house.

COOD seating and ventilation in G a theater mean so much to ones comfort while seeing a picture. I think. That's one of the reasons why we enjoy going to the PRINCESS THEATER so much. Their seats are comfortable, you can see the screen perfectly from every seat in the house, and the ventilation system keeps the air cool and refreshing

all the time. CO-OPERATION seems to be the keynote of the BARR LUM-BER COMPANY'S business poli-They are furnishing the lumber for the new house we're building, and their home planning de partment has helped us so much with the plans. They are so ready to serve their customers in every way-it's just like dealing with friends.

To cut fresh bread, use a knife which has been dipped in hot water. This will prevent the bread's crumbling. \* \* \*

I AM so pleased with the work 1 my new dressmaker does for me. Her name is MISS NORTH, and she's at 426 W. H. Spurgeon Building. She does awfully clever designing, or will make a dress according to your own ideas, if you don't happen to find a pattern that suits you. And she's so prompt, too. Always has a dress finished when she says she will.

Left over berries, parsley and lettuce leaves keep better in the refrigerator if put in airtight glass jars.

WE have enjoyed our Vocalian vays get the best of the new ones every month at YE PHONO-GRAPH SHOPPE, and we find them so true in tone as well as being right there with the latest hits. And really, I do like the soft brown color of Vocalian re-Jerry laughs at me for but when one realizes that that soft brown finish makes Vocalian records unusually long lived, I think I'm justified in saying I like

. . .

COR really artistic portrait photography, commend me to RABE'S STUDIO in the W. H. Spurgeon Building. Several of our friends have gone there on our recommendation, and they all agree that the work is splen-did. And Mr. Rabe makes such a success of photographing tiny babies, too. He did some wonderful pictures of my sister's youngster. WHENEVER I am on Sycamore

between Third and Fourth, I always stop to look at the windows of MADAME MARIE LOU-ISE'S millinery shop. She has the loveliest hats, you know, and they do look so pretty in the windows. But the best part about it is that they look even prettier when one has them on. Anita and I have had so many lovely models from there.

WHEN I was out driving one day last week I noticed as I went through Orange and Fullerton that the ORANGE COUNTY IGNITION WORKS has TY IGNITION WORKS has branch establishments in both places. I'm glad to know it, too, for it was almost like meeting a personal friend to see the familiar sign up over the door. And the service they give is so efficient and courteous, too.

\* \* \* THINK every housewife longs for beautiful china. I know I am positively devoted to some of the pieces I have. And I love to add to the collection as I see something that takes my fancy.
Just yesterday I got such a lovely handpainted plate at the D. ANDERSON china store. It a beauty; the design is so unusual and the painting is so well done.

REALLY, after visiting the Better Homes Exposition this week, I'm fully convinced that an "electric home" is the only thing to have. The J. G. ROBERTSON electric shop is furnishing the electric equipment at the Exposition, you know, and there certain ly are all sorts of labor saving devices that may be used in the home. I've had such satisfaction from my Premier Cleaner I got at Robertson's.

SINCE Jerry found how pleased I was when he brought me home a box of chocolates from JAMES' CONFECTIONERY one day last month, he's taken to do-ing it quite often. Of course he's adorably awkward about it; insists that he's remembering this or that anniversary, but I can see by the twinkle in his eye that he knows how I like it. I'm curious to know whether he will remem ber our wedding anniversary next

AM a firm believer in the value of advertising. Whenever i go to buy drugs or toilet articles at the ROWLEY DRUG STORE, I always get an advertised brand, and ask for it by name. It not only assures me of guaranteed quality but it saves my time and the clerk's. Rowley's carry all the standard advertised lines in stock, too, so that I have plenty of \* \* \*

IN the specifications for the kitchen of the new house we're designating a special spot for the kitchen cabinet. And I've already ordered the one we're going to have, from the CHANDLER FUR-NITURE STORE. It's a "Kitchen Maid" and really, it is the most complete kitchen cabinet I think I've ever used. I've had so much satisfaction from the one I have

THERE is quite a vogue for decorative hat boxes now, you know, and Anita's latest scheme is to take some of the wall paper we selected at MITCHELL'S for her bedroom in the new house and use it to make a band box to match the rest of the room. Quite a clever idea, I think. Perhaps if I'm good she'll make me one too.

THE cleaning of Anita's and my more delicate frocks used to be such a problem to me, but it isn't any more. We send them to the CRYSTAL CLEANING COM-PANY, and they come back to us just like new, and with not a bit of gasoline odor. The Crystal, you know, uses the odorless Benzol process, and the results are

wonderful. SERVICE is certainly the watch O word of the AUTOMOBILE CLUB OF ORANGE COUNTY. We feel that the Winged Wheel on our radiator stands for just about everything an auto owner could desire in the line of insurance and map and road guide service. It makes us feel so secure when we're out driving to know that we're fully covered by insurance and that we're on the right road

as shown by the Auto Club maps. ERRY does like the smoking jac ket he got at the WARDROBE so well. It's really beautiful. Such nice looking material, and made so that it's good looking and "comfy" at the same time. Jerry calls the Wardrobe his "complete outfitter."

REALLY, you know, I think we should be proud to have a place like the EXCLUSIVE BLOUSE SHOPPE in Santa Ana. They carry such a variety of styles and materials in blouses, and the prices are so reasonable. And they specialize in large sizes, too, which is a boon to the woman who has trouble being fitted in the smaller sizes.

Wide flaring sleeves showing the Chinese influence will be popthe Chinese ..... ular this fall.

I DO appreciate the convenience of being able to do my shop-ping quickly at GERRARD BRO-THERS' grocery. They have all their stock arranged on the shelves alphabetically, you know, and it takes no time at all to se-lect what one wants, have it wrapped, pay the cashier, and be on ones way.

. . . IN the next ten years the money in this country is going to go to the farmers who furnish the food for the nation. That's why Ethel and Jack are so enthusiastic over their farm in the Palo Verde Valley, for Jack says he's found the ideal place to raise stock as well as crops. They got their farm through the WILMAX LAND COMPANY, and they certainly are pleased with both the valley itself and the location of their own particular piece of land.

I'VE found the best place in town TVE found the best place in town to get baked goods is the DRAGON, on Fourth street. If I want to make a hit with the family, I serve a lemon pie from the Dragon for dessert, or one of their delicious apple pies. And we always feel that ice cream for dessert is incomplete without a slice of Dragon chocolate cake to go with it.

# A Sale of Remnants

THURSDAY-FRIDAY-SATURDAY-Hundreds of Remnants at half price-Woolens, Silks, Linings, Curtain Materials, Cretonnes, etc., all at half the original price. Special low prices on staple cotton materials on the remnant tables--Figured Voiles, Fine Ginghams, Devonshires and Romper Cloth in usable lengths. Muslins, Sheetings, etc., that offer material savings. Don't f ail to visit the Remnant Counters.

## Subscription Price of the "Register" Reduced to 60

On and after October 1, 1921, the monthly subscription price of the Register will be reduced to 60 cents per month; by the year, in advanceby carrier \$6.50, by mail \$6.00, by the half-year, in advance—by carrier \$3.50, by mail \$3.25

There is no good business reason whatever for making this reduction, except the popular demand, and to some extent the economic necessity, in

ommunity sense, for a lowering of prices all along the line. So far as The Register itself is concerned, its cost of production, per copy, is far greater today than it ever was before.

The operating expenses of The Register for August, 1920, amounted to \$12,920.28; in August, 1921, they had jumped up to \$15,618.26, an increase of \$2,697.98 per month, or 21 per cent.

"But," you say, "the volume of business has also increased." Yes, but not in the same proportion. On the first of August, 1920, the circulation of The Register was 6364; Aug. 1, 1921, it was 7420, an increase of 1064, or 16.7 per cent. And in August, 1920, we carried 35,197 inches of advertising, while in August, 1921, the total of advertising was 37,672 inches, an increase of 2475 inches, or 7.3 per cent.

Despite these facts we are giving the readers of The Register more and

petter news, editorial and miscellaneous matter than ever before-And now we are giving them a reduction of 10 cents per month in the

It is The Register's aim and ambition at all times to give its readers the best newspaper it is possible to produce for the price charged.

They are splendid hats for the money. Let us show you.

SAN FRANCISCO, Sept. 28.—Several hundred former service men and World war veterans with their destitute and stranded in foreign lands, according to word received at the Presidio yesterday. The men were discharged while on duty with the expeditionary forces and have been unable to find either employment or the means to return to the United States.

The conditions among the former service men were revealed at the Presidio with the receipt of war department orders directing the secretary of war to furnish free transportation and subsistence to destitute discharged soldiers in Europe and Siberia.

A large number of these men, officials say, were married after leaving the service and are now in need of immediate help.

The plan of the war department is to furnish free transportation to the family of any person who served in the army of the United States in Europe or Siberia and who now "is or is about to become destitute."

The men are to be notified of the

offer by the government and will be transported free of charge to some point where army transports dock, will then be brought to any part of this country designated, provided it is not farther from the debarkation point than the place of their enlist-

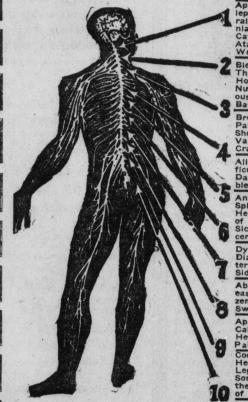

The destitute men and families in Siberia will embark on army transports at Vladivostok for San Fran-

The persons benefited by the order, according to army officials, will be under no obligation to refund any money to the government.

Orchards in Northwestern Canada have been equipped with electric lights, that the fruit may be picked at night, when the air is cool. It is found such fruit keeps better than that picked in the daytime.

What is more important than a strong, healthy, vigorous body? Wealth, prestige, social position, business efficiency all depend on the vigorous, healthy man and woman. Are you 100 per cent physically? If not why not? Reasoning people all over the world are turning to CHIROPRACTIC to keep them 100 per cent efficient. Without health nothing is possible, with it nothing is impossible. Call and let us explain the principles and qualities of CHIROPRACTIC.

# THRONGS SURGE TO VIEW WONDER SHOW EPITOME OF \$90,000,000 PRODUCTION

To the blare of a brass band, to the lowing of thoroughbred cattle, the cackling and crowing of bluebloods of poultrydom, to the grunting of hogs and to the almost bewildering intermixture of myriad other sounds, Orange county's greatest exposition of soil products and industries opened at 10 a. m. today at Huntington Beach.

From far and near in Orange county and even from various points in Southern California, came hundreds of men, women and children, ready to feast their eyes upon the wonder exhibits.

Long before the doors opened, the crowds had begun to assemble and when the vast array of products, representing the best of Orange county's \$90,000,000 annual production, was finally disclosed to the view of the throng of surging humanity, exclamations of delight were heard on every

Watch For This Novel By Lucy Stone Terrill

To Be Published In

# Register

Beginning October 1 A Clean Dramatic Story Of

Modern Society

Here Is Life—life as it is often lived in American society, the unlovely sometimes with the spotless, but never the sordid or the vulgar. There are problems to be solved—but A Thing Apart is not a problem novel. Rather it is a modern drama, a presentation of actual living that is but the sweeter for the difficulties that beset it. The story is one of complications and conflicts, but it has the good

things of life also—youth, love that endures, and ultimate happiness that is firmly

It is a story that YOU should read!

Nature's treasure house has been called upon to furnish the exhibits for this great fair and wondrous is the showing made.

Chester, Cato and Garrigan, Los Angeles, sandwiches, notions, etc.

Golden State Oil company, Huntington Beach, oil information, etc.

A dozen farm centers, all the way from La Habra, Buena Park, Cypress, and Yorba Linda on the north to Costa Mesa, El Toro and Capistrano on the south, have beautiful community displays, where are shown the rarest fruits, prettiest flowers, and a multitude of excellent farm products of individual disstricts, and there is strong competition for the \$250 cash prizes offered for the five best displays. The judges were to begin their work at 1 o'clock this afternoon, but their decision probably will not be made known for a day or two. Murray Horne of Yorba Linda is in charge of this department.

The "canary cottage," occupying more than 400 square feet, is a place of beauty and song, for there are gathered many dozens of sweet singing songbirds, gorgeous colored parrots and several aquariums of gold fish, in direct charge of Mrs. C. E. Lavering, the "song bird lady."

Big Pigeon Show Charles C. Clark, pigeon fancier of Fullerton, is a proud and busy man with his pigeon show, and he takes great pride in the extensive showing of birds in this, one of the first pigeon shows ever held in Orange county. The pigeon show is a new and novel feature and the birds, many of them world prize winners and of rare varieties, are attracting much attention. George W. Wardwell of Huntington Beach is in charge of the pet stock department including dogs, cats and other pets owned by county people.

The Red Cross has a rest room for mothers and babes, and an emergency hospital. Rest rooms are also maintained by the W. C. T. U. and Baptist women of Huntington

and They Stay!

## MRS. CHASE HOLDS THEM

Cold type can't tell you what the Better Homes Exposition means---you've got to go there to understand.

Yesterday Mrs. Chase unfolded draperies before a large audience, she told them why she selected this pattern and shade for one condition and that for another.

Presently, white-clad meat-cutters transformed the stage and assisted the lecturer in showing from just what part of the beef each cut was taken.

And then the cooking! Could anyone leave, with the scent of beef stew in the air, and the sight of a delicious planked steak before the eyes?

Today, furniture is the theme, the aroma of perfectly brewed coffee predominates and delicious bread.

# Tomorrow--Music and Books

a realm in which Mrs. Chase is much at home. You must get her point of view on these and other household topics. Be on hand tomorrow, to see her demonstration of deserts and pastries made right before you.

Program Starts Promptly At 2 P. M. With Musical Selections Worth Coming Miles To Listen To

THE EXHIBITS ARE REALLY NOVEL. PLAN TO BE HERE EARLY!

## **PROGRAM**

For Last Two Days

Thursday 2:30 P. M.
Lecture subject: Music and Books in the Home. Demonstrating Desserts, hot and cold, including pastry. Friday 2:30 P. M.

Lecture subject: Home Management to include household Demonstrating Scientific Recipes of Cake Making, Icings Bring your Note Books and Pencils. Saucer, spoon and napkin will be given free to every one—courtesy of Sam

#### INDIAN PUDDING

For the Indian summer days that are soon to come, what could be more appetizing or appropriate than this Indian pudding? The recipe:

Soak 5 tablespoons pearl tapioca in cold water for several hours. Scald 1 quart milk and pour it very slowly over ¼ cup corn meal. Add ¾ cup molasses, 2 tablespoons butter and 1 rounding teaspoon salt. Cook in double boiler until mixture thickens. Turn into buttered bak-ing dish. Add tapioca, drained from the water. Pour 1 cup of milk over the tapioca, but do not stir. Bake an hour and a half in a slow oven Quick baking will give an unsatisfactory result.

To Darn Stockings Unravel what remains of the chil dren's old stockings, wind on a spool and use for darning other stockings

Drain Vegetables Never allow vegetables to remain in water after they are cooked. Drain

Do not keep partly soiled garments in an unaired place. They are likely

"Tanlac is the only medicine that ever helped me, and that is saying a great deal, for I have spent hundreds of dollars trying to get relief from a bad case of indigestion," declared George Dickson, of 1068 Howard St., San Francisco, Cal.

"Before I got Tanlac I suffered from indigestion for twenty years. My appetite almost played out and I hardly ate enough to keep me going. In fact I could hardly retain even the lightest foods on my stomach.
If I ate anything the least bit heavy it lay like lead on my stomach and bloated up with gas, had heartburn and sharp pains in my stomach. My heart palpitated like it would burst, I had splitting headaches, and was so restless at night I would often roll and toss for hours, hardly ever able to sleep. I think I took every kind of medicine I ever heard of, but finally got so bad off I had to lay off from work for three and four months

"It was certainly a joyful surprise to me to see the way Tanlac took hold of my case. I am now in splen-did condition, my appetite is fine and I can eat anything and everything and never suffer a particle from gas. shortness of breath or palpitations. I am entirely free from headaches and sleep like a rock all night. I have gained ten pounds in weight, got back all my lost strength and simply feel like a boy again."

Tanlac is sold in Santa Ana by The Rowley Drug Co.

#### **UP-STATE NEWS**

SACRAMENTO-The bid of R. McLaren & Co. of San Francisco to do the concrete work on the filtered water basin at the filtration plant for \$115,580, or \$46,350 under the estimate of the engineers, last night, was accepted by the city council. Work is to be begun at the earliest possible date, city officials said, and contracts call for completion of the basin not later than January 1.

## 'Follow Through' Investment Service

FIRST NATIONAL Investment Service to you does not end with the selection of your securities.

This bank's interest in the financial progress of Orange County people has established the policy of its Bond Department to "follow through" investments of its customers with thoroughness and accuracy.

All matters of interest to the holders of securities bought through this bank are brought to their attention well in advance

of the time required for action.

This may include payment of subscription installments, periodical information concerning the financial status of the issuing corporation or municipality, notices of conversion privileges or of bonds called for redemption.

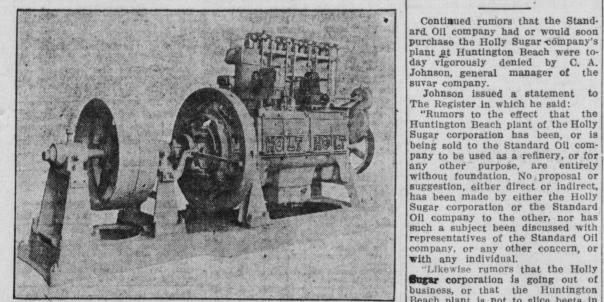

We offer you this individual service, and shall be glad to put your name on our mailing list for investment information.

#### Motor SUGAR PLANT CHIEF Caterpillar Stationary

SAUNDERS BROS., Distributors 322-324 Philadelphia St.

"Caterpillar" has come to mean to the world POWER and ENDURANCE. The Caterpillar Motor has stood the most rigid tests of power service and has proven itself to be the most durable and dependable of engines.

As a power unit for pumping plants, because of the ease with which it can be started, the steady application of power and the wonderful economy with natural gas as fuel, the Caterpillar has proven a remarkable success.

Would you be interested in a plant operating for less than onehalf cent per horse power hour? Ask for a demonstration.

#### Loans Have Many Installment Advantages

For the man on a definite monthly income. He sets aside a certain amount each month which in a given number of payments matures his loan. Each payment means that he owes less on the principal and therefore has more of his own money in his home. The interest rate is moderate and papers are written for the full term of the loan which saves expense of renewal. Other advantages will be explained to you at our office.

## Gas Heaters

Don't put off getting your Heater-you will need it soon. Our "Packer", blue flame, asbestos back heater, is not only beautiful to look at, but is a very economical, powerful and odorless stove.

It is proposed to have bids opened

\$5000 in Pledges

In accordance with the agreement reached at the meeting of commit-tee heads, that committee is now en-gaged in urging all of those who pledged sums under the \$5,000 drive

Mother Goose and Dad's Twin at the Drange County Trust and Savings bank. Warne is treasurer for the Y. W. C. A. fund.

#### WORTH KNOWING

When hot fat is spilled on kitchen floor pour cold water over it at once. This will harden the grease and it can easily be removed.

Bags used for filtering coffee are best made of linen crash or of cotton flannel. They should be washed and

After peeling onions or handling any strong smelling foods the odor can be readily removed from the hands by washing them in mustard

#### BRAN WATER

Use no soap, but bran water to wash your light colored muslins and ginghams. Put three cups of plain bran into a thin cotton bag, large enough to allow the bran to swell. Put in two gallons of water and allow to boil until the water is strongly tinctured with bran. Then remove bag and when the water is comfortably hot wash the garments. They'll be like new.

## Great Torrance Well of the Standard Oil Company

-- as it really is!

Of course you have read and heard about the famous well that is making oil history on Bolsa Chica dome near Huntington Beach! The sensational striking of a big oil sand (no one knows how great the depth of it may be) has brought on the run Standard Oil officials and some of the most prominent oil authorities in the State, to the Bolsa Chica Dome! Furthermore, it is reported that bonuses of as high

as \$1000 an acre have been offered by the big companies for leases near OUR 30-ACRE TRACT, as the result of this SENSATIONAL STRIKING OF

NOW-are you interested? Wouldn't YOU like to be on hand—on the ground—see the great deep test Torrance Well-and take a wonderful tour through Huntington Beach oil field-FREE!

#### Standard May "Open Her Up Full" at Any Moment

It is possible that STANDARD MAY start something in the well tomorrow, while you are there. AS it is, a heavy double T valve, and over 4000 feet of heavy mud in the hole, is keeping the tremendous pressure of the oil and gas below from bursting all bounds, and shooting possibly to the top of the derrick!

Just as soon as the pipe line and huge storage tanks can be connected up, Standard will let 'er go! And what then? The most conservative estimate a 10,000 barrel flush production! But come and see for yourself-see the sumps filled to overflowing with the rich black OIL!

## Special Excursion

Leaves for Bolsa Chica Dome Promptly at 11 o'Clock! Be Our Guest!

Despite the fact that we are selling lots in our 30-acre tract, 200 yards from the Torrance Well, LEASED TO THE STANDARD OIL COMPANY-everything on this strip is FREE, and absolutely void of any obligation.

Think of an appetizing dinner at noon on Bolsa Chica Dome, in the shadow of the Torrance Well. Imagine listening to a great lecture on "Oil" while you can, at the same time, watch the smoke of the Huntington Beach derricks on one side and Signal Hill on the other!

We'll show you why our few remaining lots are going like wildfire!

... This Is Your ONLY Chance to Buy Lots Leased to Standard Oil—at the Old Price!

## THIS YOUR BIRTHDAY? LIFE AND CHARACTER READING

The person of this birthdate is sensitive, affectionate and deeply hurt when criticised and lacking force to carry through a project to a successful finish. The chief characteristic is love of home and children. The temperament is calm and well poised, sympathetic and reliable.

The judgment is exceptionally keen and there are many talents, but concentration of mind and effort must be cultivated and the dislike of control of the con

criticism must be overcome. The governing sign Gemini gives this nature a dual character. The birth planet is Mars.

The moon has a strong influence on this nature and this accounts for the variable moods.

These people find solace and help in music and art and may cultivate any musical instrument they wish with success.

Use the Want Ads to secure good positions as clerks and accountants during the coming week.

Jones, field secretary of the All-Year club of Southern California, was in Orange county today endeavoring to secure support for the club's national advertising camshare to this co-operative enterprise. represented by C. C. Chapman, of Fullerton, did not arbitrarily or at all fix a quota of \$25,000 for Orange county. He said that amount was fixed at the suggestion of Orange 1,494.50 county people who thought it would not be too much for this county to contribute to the fund. name he mentions in this connec-4,252.50 tion is that of Chapman, and yet he does not hold Chapman responsible for the fixing of the quota.
However, Jones said any talk of a \$25,000 quota for this county is futile, in view of the attitude of the people since the matter has been under consideration and public dis-cussion. Jones believes that the idea

> well, and that the executive committee hopes to receive such support financially and otherwise as this county is willing to give. It seems apparent from what Jones says of the expressions he 2,915,00 has secured from people in all parts of the county, that Orange county is willing to do its fair share in this co-operative enterprise.

GRANT M. LORRAINE, President

EVENING SALUTATION "Fame is a mist that disappears As light clouds blown afar; Love is eternal as the years," Youth an immortal star.

#### FIRMER THAN EVER BEFORE

The eighteenth amendment was passed by a peo ple who wanted prohibition and who set about to get If prohibition is not desirable, and is found objectionable by a majority of Americans, a thorough trial of it will make this plain. Meanwhile any hedging on the Volstead Act, or any attempt to make it seem to mean what it was not intended to mean, is a manifestation of bad faith and is fighting over a point aside from the main issue. Disconsolate wets are crying aloud the length and breadth of the land that prohibition is a dismal failure because, forsooth, bootleggers, blind piggers, moonshiners and others of like shady character are active and in some localities highly successful in their operations.

But the activities of law-breakers is not and never can be an argument worth while upon a question of the continuance of a law for the good of the land. However successful illicit sellers of whiskey may be, the fact remains that the total amount of liquor sold in the country today is of little consequence when compared with the huge sales piled up daily in the open saloons now gone forever from this country.

Those who are fighting for the return of liquor are getting nowhere in their fight. There is no chance of breaking the eighteenth amendment. It is on the books of the United States to stay.

It is there to stay because its great economic value is being demonstrated every day. There are more people today glad that the amendment is in force than there were yesterday, last month, last year.

It may be all right to protect home-brewers against prohibition agents, but what most of them need is to be protected from themselves.

#### PUBLIC EMPLOYMENT SERVICE

The United States Employment Service was first greatly reduced and then practically abandoned within a comparatively short time after the war. Many social workers and far-sighted persons interested in preventing the evils which follow unemployment protested against this policy, but general public and official indifference toward it proved stronger.

France established such a service as a war emergency in 1915. It is now carrying on more successfully than ever. There are 15 offices in Paris, with separate bureaus in a number of smaller cities. ful stability and prosperity in business and industry. There are also provincial offices through which workers are transferred from one section of the country to

Immediately after the armistice, of course, the and work was heavy, because there were large numbers of our attention of the great gathering in Los Angeles. former soldiers to be placed. But it has continued its usefulness to the present and appears to be pretty | well established as a permanent thing. There is a definite attempt to decentralize the system, local bureaus being practically self-directing, with only a few regulations from the central office complied with by all alike.

Even a strong public employment system in this country could not have controlled the conditions which brought about the now waning business depression. It seems more than likely, however, that citizen. And in the discharge of the duties of those live it could greatly have relieved the difficulty and would positions he gave unfailing loyalty to the Nation as now facilitate the restoration of better conditions.

batch of pupils to Washington.

#### A HUMANE IMMIGRANT UNIT

A writer to the New York Times makes a practical suggestion which if adopted should prevent some of the distressing separations now occurring daily under the immigrant quota law. His idea is that families be counted as units rather than as individuals.

This, like all other suggestions, is open to criticism and liable to abuse if adopted, but it is founded on reason and humanity. Under the present ruling a the name of one of the most loved men who ever father, mother and three or four older children may served the American people. be admitted, and then a little one of five years or less may be marked for detention or deportation because the national quota for the month has been filled. Married couples may be parted similarly, and other unwise and inhumane partings may be ordered.

There is much to be done and undone before immigration is handled properly, but pending the enactment of entirely satisfactory laws, some such alleviating measure might be considered by Congress.

When Clemenceau announces that he doesn't want any public office, and expects to die within a year, his enemies instinctively brace themselves for a fight.

#### RECLAMATION STATE'S NEED

Utilization of thousands of acres of California's rich agricultural land by colonization is the state's most urgent need, according to Dr. Elwood Mead, of the University of California.

In a talk before a large gathering at the university last week, Dr. Mead said as follows in reference

to the state's agricultural outlook: "This State needs more farmers," said Dr. Mead, "great areas now growing grain should be in orchards or alfalfa. Tens of thousands of people in the east long to come to California. To them it is the land of opportunity. Our rural life has allurement which only those who have gone through months of cold snow can understand. Our task is to work out a life schools has much to do with this rush to the college. Many parents who a decade ago were satisfied with a high school diplome for their children plan which will satisfy our needs and their desires.

or ten per cent interest on borrowed money. We must make a scientific study of colonization. It is needed in order that we make California a real beacon of hope to the people who come here with their money, their industry and inspirations, and in order that we can carry on the monumental task of reclamation and rural development which lies before us."

#### PASS OLD CLOTHES ON

The season is at hand for going through trunks,

occasion for weeding out every garment which can be spared and turning it over to the proper organizations to be used for the need. Locally the cast-off clothing may be sent to the Day Nursery on Fifth street between Spurgeon and French streets.

There will still be prudent souls who will hoard away unneeded garments because at some time they may be useful, or because they "are too good to throw away." This is not thrift, it is stinginess; not virtue, but vice.

It is hoped that everybody who stores away clothing he does not need, while little children shiver and older folks go ragged and cold, sees the error of his ways forthwith. The clothing should be doing somebody some good.

#### ARMISTICE DAY THIS YEAR

A holiday is to be proclaimed for Armistice Day, and it is the wish of the President, as of all thoughtful citizens, that it shall be observed everywhere in a fitting spirit. The day should never pass lightly, devoted merely to merrymaking. The war cost too dear, and peace means too much. This year, as the opening date for the great arms conference, it assumes new signficance, and demands new respect.

In Washington the arms conference will assemble on Armistice Day for the first time, but will adjourn immediately to attend as a body the burial of the unknown soldier at Arlington. At those services every effort will be made to recall the sacrifices of the war and the obligation which they put upon the great nations to lay the foundations for lasting peace.

It has been whispered that America is apathetic about this conference. Nothing could be further from the truth. Nothing will refute the suspicion like a general Armistice Day observance, following in dignity of purpose and spirit of consecration the example to be set in the nation's capitol.

#### The Bankers Convention Long Beach Press

Gathering for the national convention of their as ociation, bankers from all over the United States are coming to Los Angeles. They will be entertained hospitably and elaborately. But they are not coming merely for a social fest. They have before them grave problems of moment to banking interests

and to the whole country.

The broadly-intelligent, conscientious banker o today takes cognizance of the bank's relations to the public and to public affairs. He realizes that the bank wields great influence upon the currents of economic life. He knows that a wise, sound banking system and judicious policies affecting banks on the part of government, and the proper attitude toward their opportunities and obligations, by bapkers themselves,-he knows that these things are

It is this conception of banking—it is this realiza-tion that the banker is not alone a part of a private business organization, but that he, in large measure is a public figure, a steward of vast opportunities responsibilities affecting the public welfare-it

#### A Memorial for Lane

San Francisco Chronicle The life of Franklin K. Lane was devoted wholly to the service of humanity. And he died leaving no estate. It was a noble ending of a noble life. The statement that the life of Mr. Lane was devoted to humanity is deliberately made. He came to occupy public positions of high responsibility such

as may well be the goal of the ambition of any good such and to the laws with whose administration he was charged. But those who really knew Mr. Lane know that he

with legislation is the instruction of the legislators.
And then, just as they begin to get their bearings, the people vote them out of office and send a new months after to an intimate friend: "I did want to be elected Governor. There are so many things that I thought I could do."

That was typical of Mr. Lane. His thought of official life was never of the honor to himself, but always of usefulness to others. And he died and

Happily citizens of republics are not ungrateful. Some of his friends who are in a position to do so have quietly raised a fund of \$100,000 for a Lane memorial, whose income will support Mrs. Lane com fortably during her lifetime, and the principal, which may be increased, will finally be devoted to the establishment of some institution of a national char-

#### The Rush to College San Bernardino Sun

The extent to which the young people of this ountry have acquired faith in the value of higher education may be gathered from college enrollments which now are being made public. Smaller colleges as well as universities which have so far been heard from report almost incredible increases.

Despite some remarkable records in the past, it is certain that the rush to college this year will be greater than ever before. Even increased tuition and living costs in college towns as a result of this crowding are no bar to the great crowd clamoring for a college education. In the schools in which it was decided to resort to stiffer entrance examinations to keep down the enrollment even this has failed. The desire for higher education seems to overcome all obstacles.

For obvious reasons many educators had expect ed, if not a decreased, at least no greatly increase enrollment; so that they are now at a loss to explain this unexpected phenomenon. Others see in it nothing more than the fact that public interest in educa tion is being taken up at the point where it stopped when we went to war. The demand for higher education, however strong it may seem now, is no greater than it would have been normally had there been no war.

A good share of the increased college enrollment lue to the fact that the value of college education is becoming more widely known. raising of the standards of education even in the isfied with a high school diploma for their children arer no longer satisfied with this minimum. They "We must abandon the idea that a farm can be are applying to education the slogan so familiar in paid for in five years or that a farmer can pay eight the field of business, "The best is the cheapest in the long run." Certainly our present rush to college admits of no other interpretation.

If worry over mistakes or troubles possesses us, then we become a real manufacturing plant for the production of more worry and trouble the victim to vomit, is the first thing in the world

Seek to become a new owner each minute—each day. Of ideas, chances, fresh friendships, new determinations—and set resolves. God walks with folks who pass right along!

## The Velvet Hammer

You have often heard it stated, east and west or north and south that a dentist's pessimistic 'cause he looks down in the mouth; but I'll tell the world in English, French or Dutch or good old Latin, if there ever was an optimist, it's Dr. M. A. Patton.

To prove he has a merry heart likewise a friendly word, he was once exalted ruler of the city's antiered herd, and when the lodge's helping hand is showering fruits of pity, it's pretty safe to say that "Doc" is one of the committee. He likes the work among Boy Scouts, will hike and swim and climb, and when it comes to raising funds, he's with them every time.

Aside from his profession, he runs a thriving ranch, has owned some glowing citrus groves, and knew them root and branch. And what he does, he does extremely well, he is, forsooth, the leading of an Elkdom's lodge or pulling of a tooth.

## Worth While Verses

#### TO CELIA

Drink to me only with thine eyes, And I will pledge with mine; Or leave a kiss but in the cup, And I'll not look for wine. The thirst that from the soul doth rise Doth ask a drink divine; But might I of Jove's nectar sup, I would not change for thine.

I sent thee late a rosy wreath,

Not so much honoring thee

As giving it a hope that there It could not withered be; But thou thereon didst only breathe And sent'st it back to me; Since when it grows, and smells, I swear Not of itself but thee. -Ben Jonson.

Lacking an adequate supply of animal fats, the Chinese have turned to vegetable oils, which they are feeling like a fish out of water until using as we use butter and lard.

A man never realizes the full significance of the old saying about to vegetable oils, which they are feeling like a fish out of water until he attends his own wedding.

#### Bear Stories for Bedtime

Chapter 152
THE BUFFALO'S FEATHERED
COMPANION By Harvey Elliott

In the last story I told you of very large animal and in this one I will tell you of a very little one. And Then he inserted this: yet these two are very good friends. At least they live very close to-

The name of this little creature is the Buffalo Bird. It followed the Buffalo everywhere it went and as the Buffalo disappeared the Buffalo Bird disappeared too. They used to tell us that this bird made its nest in a Buffalo's wool right on his head, laid its eggs and hatched its young in the Buffalo's mane. But it is doubtful if this is altogether true.

It is true, however, that the Buffalo Bird was fond of making its nest in the shaggy mane of a Buffalo's head but that was after the Buffalo plains. Even when this blackbird made its nest on the ground it depended on the Buffalo's wool for the inside lining.

Was that most the men will dance after have but few women will dance after have but few women will dance after have but few women will dance but elderly women. was dead and its head lay on the

It wouldn't seem that a live Buffa- will not. It wouldn't seem that a live Buffalo's head would be a very safe place for a nest of eggs or young bifdies. When he would toss his head around, or go on a stampede, the eggs or birdies would be likely to get spilled out. I am sure if the Buffalo would hold its head still long enough these blackbirds would hatch their young.

will not.

I can think of several reasons. But the main reason—the reason that is the real reason in most instances—is that men are less sensitive as to their awkwardness of get ure than women are. There is nothing in the world that a woman dreads like she dreads appearing ridiculous. A man can laugh with

birds like the Buffalo so well. I will tell you. In the first place, they like the Buffalo's nice warm wool. On the cold nights they can nestle down in the long mane and keep warm all night. Then the Buffalo.

In reading over the newspaper warm all night. Then the Buffalo helps him to get his food. You know that flies and insects follow the Buffalo and torment them just like they do the cows. Well, these little birds like these flies and insects and insects with the second warm of the second war birds like these flies and insects and so by living with the Buffalo they can find plenty of meat to eat.

Then that's fine for the Buffalo, too. Then that's fine for the Buffalo, too, not of that kind, and American Legbecause the birds help to keep the flies off of him.

the Buffalo Bird likes the Buffalo. In the winter time when there are no flies these birds might have a hard time getting enough to eat, especially when snow covers the ground. Well, when the Buffalo paws the best safeguards against accident-al poisoning.

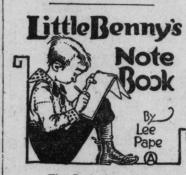

up the snow, the bird can hop around Tim Carroll of Anaheim, has and gather up the seeds that drop brought suit for \$100,000 damages up the snow, the bird can hop around from the weeds.
